

SERVICE BULLETIN

Date: June 08, 2017
Update Number: S2017-08
Subject: New Garage Door Opener DC Motor
Products Affected: LiftMaster® DC Garage Door Opener Models 8550, 8550W, 8360, 8360W, and 8160

As part of our continued commitment to quality, LiftMaster is proud to introduce the new proprietary DC motor included in the production of all DC garage door openers starting August, 2017.

With the implementation of this new proprietary DC motor, two new service kits will be available for the LiftMaster DC garage door opener models 8550, 8550W, 8360, 8360W, and 8160.

The introduction of this new DC motor allows LiftMaster to better serve its customers, offer the highest quality motors, and ensure continuity of supply. LiftMaster has always produced its own residential AC motors and is committed to delivering products that are the highest quality in the industry. These motors have been in development and tested over the past five years, including field tests, which have delivered excellent performance results.
