

The Finest in Woodtone Garage Doors

Exclusively Offered by C.H.I. Overhead Doors

At C.H.I. Overhead Doors, we believe garage doors should demonstrate both durability and class. Our Accents Woodtones garage doors are meticulously designed and manufactured using full color digital imaging and insulated steel to create the highest quality, most realistic woodtone doors available. Utilizing groundbreaking advances in design and technology, each Accents Woodtones garage door is as colorful and authentic as real wood.

Step 1: Hand Select Premium Lumber

We start with carefully selected premium lumber that is milled with precision to uncover each board's unique grain pattern. Only the highest quality boards, chosen for their natural design and texture, become part of our Accents Woodtones family.

Step 2: Digitally Craft Each Door

High-resolution digital scanning captures each detail of the wood and allows our design engineers to digitally construct each door board-by-board. This craftsmanship provides a non-repeating grain pattern that reflects the true color and appeal of real wood.

Step 3: Flawlessly Create Every Section

In order to ensure the classic woodtone appearance, the finished product is treated with an industry leading UV topcoat, providing years of protection from the natural elements.

ACCENTS WOODTONES *Raised Panel | Stamped Carriage House | Stamped Shaker | Planks | Skyline Flush | Shoreline | Flush Carriage House*

Walnut	Driftwood	Mahogany	Cedar	Dark Oak	Natural Oak	Carbon Oak
